Title of Research Study: Ten Thousand Families Study (STUDY00000877)

Investigator Team: Logan G. Spector, PhD, Principal Investigator

Who is paying for the study? The project is paid for by University of Minnesota Masonic Cancer Center, the Coordinating Center for Biometric Research, and the University of Minnesota Academic Health Center.

What is health research?
Research is a part of science. Researchers make guesses about how the world works and then test the guesses. The goal is to learn new things about our world. Health research is research with the goal of learning more about sickness and health. Health researchers try to keep people well and to make life better for people who are sick.

Why am I being asked to do the study?
Researchers want to learn why some people get sick and other people stay healthy.

What should I know about being in a study?
It is up to you if you want to be a part of this study. You do not have to do it. You can ask all the questions you want before you decide. You can change your mind later if you want. If you decide you do not want to do it, no one will be mad at you.

Why is this research being done?
In this study, we want to find out more about staying healthy.

How long will the research last?
The 10,000 Families Study will go on for a long time. You can be in the study for as long as you want to.

What happens if I say “Yes, I want to be in this research”?
If you say yes then we will do the following:

- Measure your body.
- Check your hearing and heart.
- Collect from you some hair, fingernails or toenails.
- Collect from you some saliva (also called spit).
- Measure your hand strength
- Collect from you some urine (also called “pee”)

Study Staff (if applicable): Andrea Hickle, MPH
Phone Number: 1-866-434-9879
Email Address: TenKFS@umn.edu
Version: May 23, 2019
Is there any way being in this study could be bad for me?
We will ask one of your parents to answer some questions about you. Some questions might seem embarrassing.

What happens to the information collected for the research?
The material will be locked in a safe place. The only people allowed to see the material are those working on the study.

Who can I talk to?
For questions, you can call the study team at:

</table>

This research was has been looked at by a group of responsible people to make sure everything is done right. If any of the things listed below happen to you then you can reach the responsible group of people by calling 612-625-1650 or go to www.irb.umn.edu/report.html

- Your questions, concerns, or complaints are not being answered by the research team.
- You cannot reach the research team.
- You want to talk to someone besides the research team or your parents.
- You have questions about your rights as a research participant.
- You want to get information or provide feedback about this research.
