Opening Remarks

Tina Smith

United States Senator*

Emcee

Ruth Bachman

Cancer survivor and Community Impact Board Chair

**Disclaimer: At print time, Senator Smith was still hoping to clear her calendar to appear in person.*

Masonic Cancer Center Panel

Cancer research has improved outcomes for patients; more cancer survivors are alive now than ever before. With this success comes the potential to affect the long term health of survivors including acceleration of normal aging with changes in neurologic and cardiac function. Our panel, Drs. Anne Blaes, Zohar Sachs, Charles Ryan, and Lucie Turcotte, will discuss how cancer treatments influence long term health and how these same topics are relevant to normal aging.

The all-inclusive evening will include:

- Opening reception
- Meet & greet with cancer researchers
- Welcome by Coach Lindsay Whalen
- Interactive panel on the theme “Living Longer, Living Well”
- Moderated conversation with Mr. Scott Petinga and Dr. Douglas Yee
- Food catered by Kafe 421
